GET OUT OF THE OFFICE

VS

MOST OF THE WORKING MASSES SPEND 40 HOURS EACH WEEK OF THEIR LIVES IN AN OFFICE OR A DESIGNATED WORKSPACE.

Office life involves a good chunk of our time spent indoors, and the vibes within those walls can seriously impact our mood and how we tackle tasks. Things like temperature, air quality, lighting, and noise can either amp up our focus or turn it into a snooze fest. Plus, our day-to-day routines are like background music to our mental well-being. Science has been on a roll confirming that the office space can be a secret superhero or a villain when it comes to our behavior, outlook, and how much we get done.

But fear not! Stepping out of the office bubble into a different setting can be a game-changer. It's like giving your brain a refreshing burst of excitement about your job. Breaking away from the usual office grind isn't just a breath of fresh air; it's a proven mood-booster and productivity lifter. So, let's spice up our work lives and take a stroll outside the usual nine-to-five zone!

**REMEMBER SCHOOL FIELD TRIPS?
IT'S A LOT LIKE THAT.**

7 BENEFITS TO GETTING YOUR STAFF OUT OF THE OFFICE

- ▶ Encourages Team Building
- ▶ Helps Avoid Burnout
- ▶ Shows care for mental health
- ▶ Employee appreciation
- ▶ Allows for office maintenance
- ▶ Inspires creativity
- ▶ Creates a fun experience

Now imagine that there is a place that has all the amenities a productive meeting room requires, yet encourages team building, shows employee appreciation, and is an overall fun experience for everyone.

WELCOME TO ESCAPE!

TEAM BUILDING

TEAM BUILDING IS A STRUCTURED PRACTICE IN THE SKILLS TEAMS NEED TO PERFORM OPTIMALLY AT WORK.

Basketball players practice together to become strong teams. The same is true for office workers. Just as basketball practice helps players systematically develop a range of skills comprising their athletic ability, team building helps workers improve skills across different aspects of teamwork, such as communication, delegation, trust, accountability, and collaboration. If your job is a big game, then team building activities are your practice sessions.

BENEFITS OF TEAM BUILDING ACTIVITIES

The benefits of a team building event for work include improving the three Cs:

- ▶ Collaboration
- ▶ Communication
- ▶ Camaraderie

Hosting a team-building event can have many positive outcomes for your guests. The activities involved with events like these help participants:

- ▶ Act outside their comfort zone
- ▶ Get to know each other
- ▶ Build camaraderie
- ▶ Resolve potential conflict
- ▶ Create a more cohesive work environment

THESE POTENTIAL OUTCOMES HELP SPORTS AND CORPORATE TEAMS IMPROVE THEIR PERFORMANCE BOTH INDIVIDUALLY AND AS A UNIT.

ENHANCING SKILLS

YOU MAY NOT REALIZE IT BUT THE ATTRACTIONS AT ESCAPE REQUIRE SKILLS THAT ARE IMPORTANT TO USE AND ENHANCE IN THE WORKPLACE.

BOWLING

Bowling is more than just knocking down pins; it's the ultimate team adventure! Picture this: you and your crew, rallying together to celebrate those strikes. It's not just about the game; it's about the awesome team synergy. It's not just about strikes and spares; it's about bonding, laughs, and creating memorable moments with your squad. So, lace up those bowling shoes and roll into the ultimate team-building experience!

ARCADE GAMES

It is a proven fact that arcade games increase hand-eye coordination. Arcade gaming even at its most basic level requires multitasking, which is a quick and effective decision making ability and so on. A lot of times during game play, the player is forced to make split second decisions, and follow up closely on such decisions. Whether you make the direct decisions all the time or not, the ability to make quick decisions will be developed over time in the brain.

LASER TAG

Not only is laser tag good for your body, it's a unique, immersive experience that's mentally stimulating. Playing can help develop hand-eye coordination, strategic thinking, teamwork, problem-solving skills, and imaginative brainstorming. It's basically a high-tech game of hide-and-seek! It's also painless and safer than similar games like paintball (there are no projectiles in laser tag, and the lasers we use are safe), making it great for all ages.

EVERYTHING YOU NEED FOR YOUR EVENTS
